<ul style="list-style-type: none"><li>Worked on platforms such as: Zoho, Outlook, Hubspot, Freshdesk</li><li>Currently working on Moodle Platform</li></ul>	

## TECHNICAL SKILLS

- Programming Languages:** C, C++, Python, HTML, CSS, PHP, JavaScript
- Libraries/Frameworks:** Bootstrap, React, Node.js, Express.js
- Database:** MySQL, MongoDB

## PROJECTS

- **Srj-Jewellery** Github Repository  
Project created using **ReactJS** for a jewellery shop/firm which can be used for advertising/promoting its products to the customers and giving them a brief idea and description about the product.
- **Group project - mediBox** Github Repository  
A personalized virtual hospital that connects people to healthcare facilities and professionals, and aims to provide information and resources related to health, medical conditions, treatments, and other healthcare topics to the general public. My contribution to the project:**Frontend using HTML, CSS and JS.**
- **weatherApp** Github Repository  
A web application that provides real-time weather information to users. It leverages the power of **Node.js**, a JavaScript runtime environment, to handle server-side operations and deliver dynamic content, and integrates with a weather data provider's API: **OpenWeatherMap.**
- **ExpenseTracker** Github Repository  
This app keeps a check on the item purchased, it's amount, it's year and month of manufacturing. Along with this, it also allows the user to add new expenses in the existing list and gives a graphical representation of expenses in form of charts. Tech stack used: **ReactJS**

## ACHIEVEMENTS

- Selected as a contributor for **GirlScript Summer of Code 2023** among **43,765 applicants from 160 countries.**
- Consolation prize for the group project: **Medibox-a healthcare website**, among **440 participants** in the hackfest conducted by **IIIT Bhubaneswar** during the annual fest **Advaita.**
